

BIDS AND AWARDS COMMITTEE

Bid Bulletin No. 2

1. SUPPLY, DELIVERY AND INSTALLATION OF ERDB's ICT SOFTWARE (SEISMIC INTERPRETATION SOFTWARE) FOR CY2024

- a. Please clarify if DOE is referring to GIS-type application. For DUG Insight, the capability is to perform analysis on map view

End-user is not requiring for GIS functions per se, instead we're looking for the software's ability to generate maps that can be viewed and analyzed, using petroleum data inputs such as seismic or well data.

- b. Please clarify the definition for lithology interpretations and modelling. Will DOE be performing rock physics?

The end-user needs a software that will be able to integrate well logs and seismic data to determine rock properties.

This Bid Bulletin forms part of the Terms of Reference. All other terms and conditions in the Bid Documents and other Bid Bulletin issued by the DOE-BAC not inconsistent with this Supplemental/Bid Bulletin shall remain valid and effective.

Approved for Issuance:
